Respected Sir,

Greetings.

It is the time we all are experiencing hard time and put the human live in stack. The entire world is in crisis due to the pandemic of COVID-19. So, the governments around the world have put their country under complete lockdown. So, the all the sources of income of people have closed and we all are suffering.

The real crisis arises among the daily wage earners, migrant labourer and the people who depend on agriculture. As we all know these people earn in a daily basis and meet their everyday necessities and not having enough savings. Since we are under lockdown these people are unable to get work and could not earn to support their family needs.

The situation also same here in Hugrajuli of Sonitpur district, Assam. Many people depend on daily work and agriculture. These people are not getting work in a daily basis since the government has declared countrywide lockdown. It has become hard for the breadwinner to feed their family. Our volunteers have identified 125 such families who are in real need of support during this crisis period.

Therefore, I on behalf of those families request you and your team to send support to these families. I along with few youth would love volunteers ourselves for the service.

Thanking you,

Yours truly,

Lirdang Baro
